

VISUAL JOURNAL PROMPT

CORONAVIRUS

While you are continuing your education from home, I want you to take time and reflect on this new situation we find ourselves in. With things changing daily, take a moment to update yourself on the current COVID 19 situation. Read through these websites:

<https://www.cdc.gov/coronavirus/2019-ncov/about/index.html>

<https://www.hopkinsmedicine.org/health/conditions-and-diseases/coronavirus>

<https://www.cdc.gov/coronavirus/2019-nCoV/index.html>

Reflect on the onset of coronavirus and how it has progressed. Answer the following questions:

1. How do you feel about coronavirus? Anxious? Scared? Surprised? Indifferent? Why is it making you feel that way?

2. What do you think of the response to coronavirus? Is it overhyped or are people taking necessary precautions?

3. What has been most surprising to you about the onset of this new virus?

4. What do you think of the transition from face to face learning to e-learning?

5. Do you feel confident in being able to continue your education at home? Why or why not?

6. What do you think you will say when people ask you about this situation in 25 years? What about in 50 years?

7. Is there anything else you want to share or express?

After educating yourself about our current situation and reflecting on it, develop ideas for a visual journal spread (two facing pages) that visually conveys your feelings about COVID19. List out ideas in the left column, sketch out at least three ideas in the right column.

LIST IT	SKETCH IT

Using any supplies you have access to create a visual journal spread (two facing pages) about COVID19. Think creatively about the supplies you have in your home. Check the supply suggestion list for common items found at home you can use in your journal.
